NOTICE

The Sanpete County Sanitary Landfill Cooperative is requesting a permit to close operation of the Class II landfill located approximately six miles north of Ephraim, Utah on the west side of Highway 89. The Chester Class II Landfill accepted municipal waste for disposal from 1989 to 2003. The closure permit includes the design for the final cover, which consists of 36 inches of soil in addition to the current intermediate cover.

The Division of Solid and Hazardous Waste has reviewed the closure permit application and a draft permit has been issued. Before taking action on the request, the Division is providing a public comment period to receive input. The public comment period on the draft permit begins Wednesday, July 6, 2005 and will end August 5, 2005. A public hearing may be held if, within 15 days of publication of the notice, a request is made to the Executive Secretary in writing and meets the requirements of Utah Administrative Code R315-311-3.

Copies of the application and the draft permit can be viewed on the Internet at www.hazardouswaste.utah.gov and are available for public review during normal business hours at the following location.
